

MOVING YOUR FUTURE

NSK is a world leader in bearings, electrically assisted steering systems for the automotive industry, precision and mechatronic products. Our products are used, among others, in wind turbines, machine tools, as well as in vehicles of almost all reputable car manufacturers. NSK originates in Japan and employs nearly 32,000 people in more than 30 countries around the world.

We are looking for a candidate with higher education for the position:

Materials Engineer

Ref. KIE/01/ETC/0424

Location: Kielce

Recruitment is covered by the "Join NSK" Program (referral bonus).

This is the job for you if you are looking for a position where you can develop your engineering skills while working in an international environment.

Your responsibilities will include:

- Control materials projects; performing budget proposals, time planning and utilising resources allocated
- Supervise the activities of Technicians and be responsible for metallurgical preparation and test equipment
- Liaise regularly with NSK personnel to ensure the customer and NSK materials requirements are met
- Prepare and deliver technical presentations under supervision

We are looking for you if:

- You have Engineering Degree (Metallurgy or Material Science) or equivalent qualification
- 3 years experience on a similar position
- You are speaking communicative English (min. level B2)
- You are familiar with advanced product quality planning (APQP) processes

If you want to join us:

- Send your CV, including the ref. number in the title, to the following address: cader-m@nsk.com
- Don't miss the application deadline (02/02/2024)
- Visit our website: (www.nskeurope.pl) and click here to learn more about the updated privacy policy for candidates for jobs at NSK Europe <http://www.nskeurope.pl/odpowiedzialnosc-2221.htm#tab4444>
